Enchanted Meadow

Enchanted Meadow is a 5-reel video slot game. Up to 15 lines can be activated, lines are numbered and always activated in numerical order (1, 2, 3, 4, etc.).

Enchanted Meadow includes a wild symbol (the tree), a scatter symbol (the fairy queen) and two bonus symbols (the flower and the medallion). The wild symbol substitutes for any other reel symbol (except the scatter and bonus symbols) to help comprise winning combinations. A wild appearing on reel 3 expands to cover the entire reel.

An expanded wild on reel 3 and medallions on reels 2 and 4 trigger the re-spin feature; a sequence of free spins commences during which reel 3 is covered by an expanded wild symbol that substitute for any other reel symbol (except the scatter and bonus symbols). The expanded wild remains stationary during the entire free spin sequence. Additional free spins are awarded during the feature if medallion pieces appear on both reels 2 and 4.

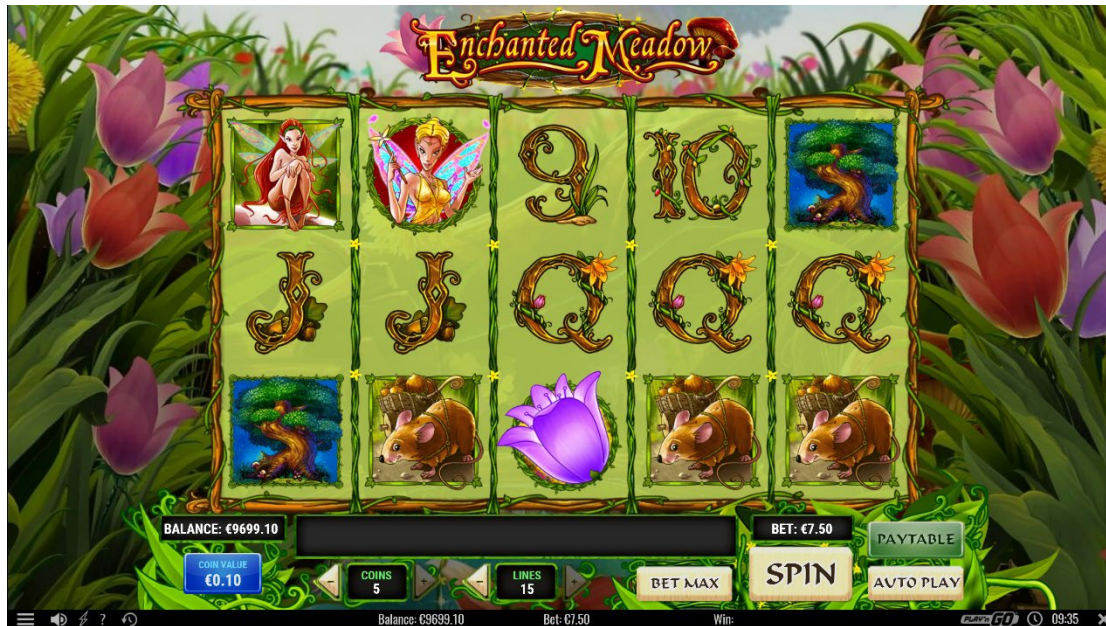

Three bonus symbols anywhere on the reels triggers the Hide-and-Seek bonus where you select hiding spots on the screen to locate the hidden fairies. Each fairy can award up to 30 free spins or up to 150x your total bet. If a wasp is found in one of the locations the bonus game ends. After the bonus game is finished a sequence of free spins commences in which prizes for winning combinations are multiplied with a multiplier initially starting at 2. Two or more fairy queens anywhere on the reels increases the multiplier up to a maximum of 5. The bonus game can be won again during the free spins and additional free spins awarded up to a total of 50 free spins. Awards in the bonus game are not multiplied by the multiplier.

The game also features an optional Gamble round that provides an opportunity to multiply the total prize on any spin in the main game by correctly guessing the colour of a face down card which has a winning probability of 50% (1 in 2 chance) to double your current win total. Or correctly guessing the suit of a face down card which has a winning probability of 25% (1 in 4 chance) to quadruple your current win total. You can play the Gamble bonus round up to five times in succession and up to a limit of 2500 coins. Gamble feature will not impact the overall RTP.

The flower symbol only appears on reels 1,3 and 5. The medallion symbol only appears on reels 2 and 4.
